

Space Mafia hails from the Windy City of Chicago Illinois. While only getting their start in 2016, they have quickly caught traction with single releases such as "Black Haze", "Baby Goodbye", and most recently "Miss Lady" that was selected as one of Alternative Nation's "Top 10 Singles of 2018" along side such artists as Chris Cornell, Nine Inch Nails, Smashing Pumpkins, and other high caliber well-known artists. With a high energy show featuring distorted guitars and slamming drums with funky bass lines, they have already solidified their status as one of the greatest up and coming rock bands of this generation.
